

## TECHNICAL DATA SHEET

# BERKBENT G5

**DESCRIPTION:** A natural, non activated bentonite, milled and air classified to give a consistent fine powder

### CONTROL PROPERTIES:

#### Grading

Dry sieved:

- weight % retained on 150 microns: 5 max
- weight % retained on 75 microns: 15 - 25

#### Moisture Content

14 maximum weight %

Control properties are parameters that are measured at a frequency relating to the known variability of the process and are used to control the process.
